

Documentation That Complements Your Product

InfoPros understands that your consumer product documentation needs to be a quality representation of your company and an extension of your brand. We also understand that you need to fit a lot of information into a format that can easily be inserted into product packaging. Your content needs to be clear, concise and easy-to-use for consumers. Through our experience working with Clients like The Home Depot, Kohler and Motorola, InfoPros has developed efficient and proven processes to accomplish all of the above and more for your company.

"...one of the most professional businesses I have ever dealt with. From start to finish, InfoPros is just excellent. The results are always perfect, which is almost impossible to say for any other company."

– Vice President, Tech Headquarters

Accuracy and Consistency through Proven Processes

When you work with InfoPros, your dedicated project team will use our proven edit-and-review process. This will ensure that your information is accurate, well-formatted and correctly meets all of your company's design and branding standards along with the standards for the companies that carry your products.

Solutions You Can Trust

InfoPros has been creating quality, reliable documentation for our Clients since 1994. Through the years, we've discovered what types of tools are available within the market to provide the best solution for your product documentation. We partner with companies that want to outsource the development and maintenance of their technical content. We make it simple; you set the objectives, we manage the process and are accountable for the results.

InfoPros can work with you to create engaging customer-focused solutions for your consumer products, including:

- Video
- Animation / Animated GIFs
- Interactive PDFs
- 3D Illustrations
- QR codes
- Line art
- Demos

Comprehensive Project Management

At InfoPros, your project will be assigned a Project Manager who will work with your company's subject matter experts and include clear, step-by-step instructions for providing feedback.

The Project Manager also will keep you informed on your project's status regarding your budget and timelines, allowing you to focus on your business.

Since 2010, InfoPros has handled all private label product documentation for The Home Depot. InfoPros has worked with over 180 THD suppliers located in the U.S., Canada, China and Mexico.
